**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by US 5230487 to Gartelmann et al. (called 487).

a. Claims 1-5 are clearly anticipated by 487 because substantially the same invention as is claimed and shown in the applicant's figures is seen in the figures of 487. 487 also discloses that the invention is made of a metal as claimed in claim 5. Also the guides are seen in substantially the same way as seen in the applicant's figures in the figures of 487. The loads are taken at least inherently in the 487 reference.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 5199538 also has features of the present invention.
